

Real Love

Key of G | 140BPM

Braden David | Jill Hoff | Blessing Asebiode

Verse

I hear You calling, calling my name
Just to come closer, beside You again
I feel You moving, from my head to my heart
To leave what I know now and come back to the start

Chorus

Unlock my heart to know You
Open my soul to hold You
You're welcome to move and undo
Rearrange my life
I trust You with every feeling
My logic can take the back seat
I'll stay in this moment
Despite what I don't know
I won't shut You out
Undo me now
With Real love (x3)

Bridge

Search me and know me
Nothing is hidden
Here in your presence
I just wanna be loved by You
